

Pinewood Derby Construction Steps

1. **Design the Car** - Design on paper first.
2. **Shape the Car** - Band saw, coping saw, sanding usually work best. (Do not make car so thin that added molten weight will burn through the body.)
3. **Add Weight** - Car weight can't exceed 5 oz. If you are melting lead, it is a good idea to add weight BEFORE painting the car. **Assistance with adding weight will only be available at the test day.**
4. **Paint the Car** - Spray paint works best.
5. **Mount Wheels** - The wheels should be square with the car and spin freely. The best lubricant for wheels is powdered graphite. Avoid liquid lubricants, they attract dirt and slow the car down.
6. **When complete** - DON'T PLAY WITH THE CAR!
CAR DESIGNS, BUILDING TIPS, HELPFUL HINTS, ETC. ARE AVAILABLE ON THE GROUP WEBSITE.

Sat, February 23 - 11am - 2pm

Car Due Day

Tues. Stockade, Feb. 26th - Wed. Stockade, Feb. 27th

TUESDAY, MARCH 5th RACE DAY

TUESDAY & WEDNESDAY STOCKADE Everyone is invited!

Tentative - NO WEDNESDAY STOCKADE MARCH 6th

(Pioneer Girls Powderpuff Derby)

Derby Regional Race

for the top racers from our Stockade

Saturday, March 9th
approx 9am @ our gymnasium.

Derby Rules

1. This is a "fun" event. We make cars, we race, we eat junk food. Don't stress.
2. All racers must be active registered members of our group.
3. **Car width and overall length shall not exceed 7" long x 3" wide including wheels, axles and attachments. Minimum bottom clearance between car and track is 3/8".** No part of the car may extend beyond the starting gate. (Indented car noses are prohibited.) Any attachments must fit through the finish line at our race and regional finals.
4. Car kit must be purchased from Stockade and built for this year's race.
5. Only wheels and axles from the official kit can be used and they must be inserted in the provided slots.
6. Car weight can not exceed 5oz. (142 grams).
6. Details such as steering wheel, driver, decals and painting are encouraged as long as these details are securely attached to the car and these details do not cause the car to exceed legal car weight and dimensional specifications.
8. Wheels and axles may be lightly filed, sanded and/or polished to smooth and true them, however original wheel diameter and width must be reasonably maintained and the wheels must remain flat. Wheel's cannot be filled with weight, tapped, or altered except as stated above.
9. A maximum of 2 washers per wheel are allowed and can be purchased at a hardware store. Bearings, bushings, springs, and propulsion devices are prohibited.
10. Stockader's name should be written on the bottom of the car. Cars will be numbered at Stockade prior to the race. There should be no numbers on the car when handed in.
11. Cars with wet paint or missing wheels will not be accepted.

A Test day will be held prior to the cars being due. This is the ONLY time weight and scales will be available to test the cars. Test day will allow the Stockader's to test run, and add weight to their car. parents are welcome to est and work days and we will have all the supplies required.

Car due day for the Pinewood Derby will occur a week before the race. All competing cars must be submitted at this time. Cars will be carefully inspected, measured and weighed to ensure that they meet the rules regarding car construction. Car weight may be adjusted by the owner at registration, scales and a hand drill will be available. Cars which do not pass inspection will not be accepted. The Chairman may, at his discretion,

Remember, this is a "fun" event!

The boys get to learn how to make a car, play with some paint and enjoy the time planning and making his car . It's important for the boys to learn how to compete but also important for them to have some fun too. In our races the competition really is secondary to the making of the car and race day. We make cars, we race. Some kids win and some not so much. We have some brownies, give out trophies and then plan for next year!
